### **Forerunner Managed Services (FMS)**

Forerunner Managed Services simplifies the delivery of IT services saving you time, money, and ensuring your systems are secure.

#### **How can FMS look after you?**

##### *Remote Assistance*

No matter where you are in the world, providing you are connected to the internet, you are only a click away from assistance.

##### *Network Monitoring*

Forerunner can setup network monitoring so that we receive an alert if a server or a computer goes down or a specific piece of hardware incurs a problem.

##### *Software Installation*

Forerunner can also automate certain types of software installations and select the computer name and software, followed by selecting deploy. Certain tasks including defragmentation and virus scans can be automated and scheduled at specific times, day or night.

Other benefits of Forerunner Managed Services includes reporting, remote audits, patch management, full system backup for data recovery and more.

## Richard's Corner

Welcome to Forerunner's September newsletter.

At Forerunner we strive to keep our clients online at all times. In the event of problems occurring, the Forerunner team strive to keep disruption for businesses and home users to a minimum.

It is important that our clients take preventative measures to ensure their data is backed up in the event of a disaster occurring. It is also important that PCs and laptops are maintained and serviced. Like a service for a vehicle, periodic checks can maintain your system, protecting your investment and ensuring you get the performance you require.

If you would like your computer serviced with a Forerunner health check, call us on 8269 5260.

Yours Sincerely,  
Richard Pederick  
CEO
