

Computer Training

At Forerunner, we understand that our clients want to improve their computer skills in a comfortable environment at their own pace. That is why we tailor our training to your requirements. Learn what you want, when and where you want. We offer one-on-one, small group, online and remotely assisted training. We are here to help you!

Training is available in: an introduction to computers, internet and email, microsoft office applications (2003, 2007, 2010), photo editing, photo management, and more.

In addition to Forerunner's high level of quality training, our prices are very competitive.

Web Design

Do you need a website to promote an upcoming event? Do you want to create a web presence for your business and let your valued customers know about your latest news and specials? Then Forerunner can help you produce a website you will be proud of.

Forerunner Computer Systems can design, produce and maintain websites for businesses, events and personal use.

We work with our clients to reach a design solution that suits their needs.

Forerunner can also organise domain registration, and provide hosting for your website.
